

# You're invited to join us...

# Beyond Counting Carbon

## Making Money, Food & Neighborhoods

Sustainable Community Strategies for Leveraging California's SB375

Andrés Duany is founding Principal at Duany Plater-Zyberk (DPZ), co-founder of the Congress for the New Urbanism, creator of the SmartCode, reformer of urban growth, and co-author of sprawl repair strategies.

Andrés will describe strategies, tools and techniques for transforming low performance, high-carbon sprawl settlements to the high performance, low carbon neighborhoods, towns, cities and regions. These are places capable, over time, of achieving full sustainability, supporting and enhancing the health of its resources – land, ecology and habitat, water, air, energy, economies and people.

If you are unable to attend but would like to participate via webcast, please visit the link below on Thursday, October 29th, at 9:00AM to view this exciting event.
